THE UNEQUAL BATTLE. It is "fighting PHIL" to the last.

Gallant BRERIDAN battles as bravely for his life as he battled for the Union. The same high courage, fortitude, self-possession and cheeriness that characterized the great cavalry leader in war have sustained him in the unequal contest with mortal disease. Like the "Old Guard" that he was so fit to have led, SHERIDAN will "die, but never surrender." He has faced death too often to

An anxious nation watches with genuine sorrow the slow ending of this brilliant career. Memorial Day will be sadder than ever if its fresh flowers shall deck the bier of SHRRIDAN.

UNITED LABOR

The enemies of the Knights of Labor were very much disappointed because Mr. Pow-DEBLY did not precipitate a row in District Assembly 49 yesterday.

The General Master Workman no doubt has his faults, but he is not contentious, he is not selfish, and he has the interests of labor deeply at heart. Besides this, Mr. Pow-DEBLY is a very intelligent and industrious worker in the cause.

The organs and emissaries of corporate and other monopolies are doing their best to dis. rupt the great labor organizations, They magnify and foment difficulties. They seek to create jealousies and antagonisms by patting the trades unions on the back. Their policy is to "divide and conquer."

Labor ought to know that " in union there is strength," and sacrifice much that is nonessential for the sake of union.

#### EXPOSING PRAUD.

The Menhistophelian HERRMANN rendered real public service last night in exposing some of the tricks of bogus Spiritualism and showing to 2,000 people how easy it is for even bright and watchful eyes to be deceived.

The magician did not pretend to deal with all the phenomena of Spiritism. Some of them, in the form of "communications," plained. But the gross materialism of the pseudo science he did expose, and that most

Credulous people will, of course, go right on being duned with "spirit pictures" and the like, but HERRMANN has shown how the fraud is perpetrated.

#### A SENSIBLE CLUB MAN.

A genuine American is Dr. LEGNARD GOL nos, of Jersey City, if the reason of his resignation from the Athletic Club of that town is correctly reported.

This club, it is said, which has over six hundred members, recently rejected a young man solely because he is " only a letter-carrier." And Dr. Gonnon withdrew from the club because of this snobbish action. He declared it to be unfair to proscribe a worthy young fellow because of his occupation.

Letter-carrying is an honorable business, it followed with fidelity, accuracy and promptness. It tends to develop the muscles of the legs and to give health to the whole body. What more should an athletic club ask? Of all the snobbery in the world, American snobbery is the most ridiculous.

THE WORLD'S special reports of police court justice have now included the impressions of a great preacher, a celebrated political economist and a famous novelist-Dr. TALMAGE, HENRY GEORGE and JULIAN HAW-THORNE. Each is valuable and interesting from a different point of view. The remainder of the series will be equally striking.

Donors of flowers for Memorial Day need have no fear that they will be superfluous this year. THE EVENTED WORLD'S plan for distributing the surplus among the hospitals for the poor, is receiving the hearty co-operation of both Grand Army men and hospital officials. Living martyrs as well as dead heroes, will be remembered.

The current conundrum: "Will the Giants take a brace ?" will be answered in the Sporting Extra of THE EVENING WORLD.

STRAY PHASES OF LIFE.

A gentleman with curiy hair and altogether a pleasing face is Mr. W. J. Guffey, of Pittsburg, who has been stopping at the Fifth Avenue Hote for a few days. Mr. Guffey makes himself up like coliar, flowing scarf, very low out waistcoat, and a plaited shirt on which rests a diamond. He has never tried the muse, however, but is a business man and the head and front of the great naturalgas syndicate of the Smoky City. He is a quie man, but worth a lot of money.

"Once in Santa F6, N. M., while I was in the employ of a Government survey," remarked an old traveller at the Grand Central Hotel the other day, "the room which I had engaged from a city, which was a great place for all the stray dogs in town to congregate. They used to get around there after midnight, and, of course, sleep was out of the question. I got kind of weary of this I arose from my bed, picked up a shotgun. and with nothing but my slumber-robe on went out on the plassa and banged away a couple of imes. A couple of canines laid down and died, he rest scattered and I made a break for my room. It was no go, however, for I had locked myself ou by closing a door with a spring lock and my land-lady was fearfully deaf. The result was I had to stay where I was until 6 o'clock in the morning. It wasn't cold though, but awfully embarrassing.

## A MOMENT OF PERIL

BY

LIEUT. WM. R. HAMILTON, Of the Fifth Artillery.

(CONCLUDED.) WRITTEN EXPRESSLY FOR THE EVENING WORLD. me than the physical bruises and the jar-

\ HE shock from the apprehension of such a calamity was worse to ring which were occasioned by being hurled against the two horsemen and

then tumbled down into the ditch at the side of the road. I thought there had been exercise enough for that summer morning, and so wheeled the men about and

took them back to the garrison. A little of this sort of exercise was more than enough. A civilian who heard of this little adventure said to me : "I should suppose that the thrill of that moment, when you wheeled your horse around and spurred him back against the advancing column with that intensity of feeling, must have been so keenly exciting that it amounted to a pleasure."

He very little appreciated what the feelings of that moment were. There are shocks and shocks. But I doubt if they are often found to be pleasant. That one certainly was not. The only pleasure was in looking back and reflecting that where so much terrible calamity might have been done there was practically no mischief accomplished. That was pleasant. But the moment itself was too fraught with dread apprehension to

A fierce battery fight, when shells are bursting and opposing troops are charging for the guns, and men are going down like blades of wheat before the mower, the hissing bullets, the short explosion of the bombs, the rattle of the musketry, the hurrahs and yells of the men, even with the intermingling groan or cry of pain-all that can be exciting. It is so. It is a swift drama, where the action sets the blood to dancing and the danger only stimu-

On another occasion I experienced a shock which was not pleasurable either. It was in 1878, and the station was in Florida. I had to inspect a powder magazine, filled with powder kegs, shells, made cartridges and other explosive material.

The sergeant who was in charge of the nagazine, accompanied me in my inspection as well as two men, to move things and replace them. We had taken the precautions usual on such occasions. We wore rubber shoes. A man is not allowed to go into a magazine with shoes, where nails might, by grinding against particles of powder, bring about a terrible disaster. No iron material is allowed in a magazine. The measures or scoops are of copper, and even the nails of the powder kegs are of copper. This is a metal which does not offer the likelihood of danger that iron does.

The sergeant carried a closed lantern, one like those that men on railroads use to give signals with, in which the lamp is securely n made by THE fastened, so that it can be swung aroun one's head without any danger. But, of course, some places must be left for the air

to get in. I had inspected a good deal of the stuff contained in the magazine. There were several powder kegs standing on the floor, some of them being empty. They had been making cartridges. I wanted to see something, and the sergeant, in order to get it placed tye lantern on top of one of the empty lowder kees. That is, he thought it was one of the empty ones. But I remembered them from my inspection, and felt certain that he had made a mistake and selected a keg from which a good deal of powder had een taken, but which was still half full.

As I saw the sergeant place his lantern or the loose head of this keg I cried out : "Look out, sergeant!" But it was too late. The deed was done, and he had placed the lantern on it. Before he could get it the board gave way, the lantern turned over and fell upside down and burning into a keg of powder half

This was another moment of intense feel ng for a fleeting breath of time. To see laming light drop into a keg with fifty pounds of loose powder in it; to fancy, in far less time than it takes to tell it, that the dust of the powder, stirred up by the lantern alling into it, would rise through the aperture, reach the flame, and then !- not enough of one's pulverized remains left to be recognized. This quick cyclone of agitated thought is not pleasant either.

The shock here was so strong, the dread apprehension crowded into a few seconds was so overcoming that it simply weakened us. There was no explosion or I should not be recording the incident now. But it was a curdling moment of supreme suspense and we could hardly crawl out through the turns of the entrance to the magazine and reach the open air. It was a very limp trio that stood outside and realized that it had escaped being blown to atoms by a chance that would not happen once in a thousand times. By this rare stroke of good fortune, somehow or other, heaven only knows why. the light went out.

I went in after a moment or two for recov ery in the open air and fished out the lantern which lay upside down, half buried in the loose powder. Possibly my friend, who thought the excitement of the railroad cut a pleasure," might have fancied this a pleasure that one covets who has ever experienced it, and I feel that I can get along for the rost of my life with the few that I have hed and not complain that others do

ELECTORAL REPORM.

Gov. Hill Urged by Workingmon to Sign the Saxton Bill.

To the Editor of the Evening World ! As you have so commendably and success fully utilized THE EVENING WORLD as a mean of giving expression to the people's opinions or desires in the case of the Saturday Half-Holiday bill, I would suggest that you again allow the people to use your popular paper in order to let the Governor know that the people desire that he should sign the Saxton Ballot bill, which makes intimidation, bribery and fraud as impossible at elections as any restrictive measures ever can be expected to do. The bill also makes it possible for the people to nominate candidates outside of the

On Tuesday the Missellaneous Section of the Central Labor Union passed a resolution urging the Governor to sign the bill. Last night the Food-Producers' Section followed suit, and the other sections will probably do the same.

suit, and the other sections the same.

If you will give the people in general the same chance to petition through your paper as you did in case of the Half-Holiday bill, you would lend a great help towards abolishing the election bribery and cajolery that disgraces the republic at present.

VERPER MUNDUS.

Petitions Suggested.

The bill which is now in the hands of the Governor awaiting his action and known as the Saxton Electoral Reform bill, is one of the most important pieces of legislation ever passed in the interest of the workingmen of this city, where political heelers and bull-dozers most do congregate and where a re-form in the manner of voting is an ac-knowledged necessity of the most pressing

kind.
Trusting your well-known independence in matters of this kind will induce you to use your great influence towards having the Governor sign this bill, I would suggest that petitions to Gov. Hill for his assent to the bill be circulated by you.

The department of political economy is to be under the headanip of Prof. E. Benjamin Andrews, now of Brown University. George Williams, keeper of the lion house, also had an experience with a pickpocket which he related as follows:

"I was helping Jake Cook to feed Crowley one day, when right in the centre of the house arose a great hubbub. I saw an umbrella raise in the air and descend upon a man's head, and the cry of 'Pickpocket!' was raised.

He is now captain of an engine company stationed at Morrisania, and had to resign the Vice-Presidency of the Live Oak Association, as he could not give the club's affairs the requisite attention. President Peter Maloney made a presentation speech yesterday, and Capt. Landers expressed his thanks. The medal is of the best gold, the middle being a \$20 gold piece surmounted by a wreath. On it is inscribed, "Presented by the Live Oak Association" and the names of the donation committee, Peter Maloney, George Moore, Joseph Nelson.

Fort Lee and took whiskey as a cure, was found early yesterday morning at One Hundred and Twenty-fifth street and Lexington avenue by Officer McCuaker, of the Twenty-minth Previnct, helpess under the influence of liquor. He was taken before Judge Gorman, of Harlem, and discharged. Gore said he had recently left the Manhattan Hopital and was told to return for another operation. One hand was still bound up. He took liquor, he said, under the advice of his physician. He will probably go to Alpine, N. J., his home.

DAVID R. FRANKLIN'S LONG CAREER WITH RAZUR AND STROP.

A PIONEER OF BARBERDOM.

It Has Given Him an Equally Long Memory of Men and Things—Some of His Remi-niscences of Historical Names and Syonts -Re Helped Start the "Tribune's " Sub-

If any one deserves the title of pioneer of the New York barbers that person is the

venerable David R. Franklin, who now has a little shop on Third avenue, near Tenth street. Mr. Franklin is seventy-four years old and has been working at his trade ever since 1829. when he began to

street, between Barclay and Veney. Everything above Canal street at that time was out in the country, and Mr. Franklin may be said to have seen the metropolis grow to its present proportions almost from its infancy. One of the earliest recollections in his business is the visit to his shop of Enoch Crosby, the original of Harvey Birch, the famous spy in Cooper's novel.

D. R. FRANKLIN. a shop in Washington

It was in the summer of 1829 when a num. ber of old residents of Putnam County came to New York to attend as witnesses in a suit brought by John Jacob Astor to establish the title to a big tract of land he had bought in that county. Enoch Crosby was among them. He was a little, old, shrivelled-up man at that time and wore gold earrings. He was so feeble that two men were always in attend. ance on him. Mr. Franklin shaved him sev-

eral times.

Another old timer who used to visit his shop in those days whenever he came to New York was Isaac Paulding, of Tarrytown, who is famous in Revolutionary history as one of the captors of Major André. There are only two of the many queer old Revolutionists who to straggle into town in those times whose names have escaped the veteran barber's

names have escaped the veteran barber's memory.

Since that day Mr. Franklin has kept shops all over town, and at one time had three shops going at once—one in the old Clinton Hotel in Beekman street, another in Nameu street and third in Carmine street.

He is chock-full of reminiscences, and can tell enough about men and things in New York during the last half century to keep a historian going without any let up for a month of Sundays.

Among his early acquaintances acquired in a professional way was John D. Skillman, the brilliant but unfortunate man who, with James Watson Webb, ran the Courier and Enquirer, one of the early newspapers of the city.

Among others whom he knew in the old times were Niblo, the theatrical manager; "Tom" Hyer, "Sile" Chickering, Abe Vanderzee, Aleck Hamilton and "Bill" Harrington, who were the leading lights of the sporting fraternity in this city forty years

rington, who were the leading lights of the sporting fraternity in this city forty years ago.

"Hyer was not a ruffian like the average prize-fighter of to-day," says Mr. Franklin, "but he was a blamed good-leoking follow, and always conducted himself like a gentleman. He knew how to fight though. I saw him fight 'Country' McCloskey up the river, at the foot of the Dunderberg. Tom knecked him all to pieces, and then trace to shake hands with what was left of him."

Mr. Franklin has belonged to various militia organizations in the city, and when the war broke out he went down to Wasnington with the Seventh Regiment and served with them six months in camp, during which time he participated in several exciting adventures. Theodore Winthrop, the novelist, was one of the members of the regiment, and was killed in an engagement.

After returning to New York, for he did not go South on account of his age, he opened his shop in the Herald Building in Nassau street. When the draft riots occurred, in 1868, he said he expected to be strung up at any time, for he was known as a Black Republican; but he kept his shop open, nevertheless, while the streets were filled with rioters.

The Rev. Chauncey Burr, whom Franklin called "a good-for-nothing 'secesh,'" was the editor of a paper called the Cascasian, published at that time, and one of his customers.

"On the morning of the first riot he came

victim, Julia R. Dewey, is slowly dying from five large gashes on her head and face, evidently inflicted with an axe. The walls of the rooms and the bed clothing are covered with blood. The axe has been found in the sluiceway on the road passing the house, a short distance away. Mrs. Dewey is a widow and resides with her two young children. The Sheriff is making an investigation. The woman is conscious, but will not disclose the name of her assailant or whether she was able to recognize him.

"On the morning of the first riot he came into my shop," said Mr. Franklin, "and asked me if I was going to shut up. I said, 'Not by a blamed sight. I'll keep open till

Not by a blamed sight. I'll keep open till they shut me up.' They didn't do it, though."

Since 1865 Mr. Franklin has been away from the city more or less, Newburg having been his place of residence until two years ago, when he opened his present establishment in Third avenue. His son assists him in his business. His Victory. [From Tid-Bite.]
